PRESENTATION

CEO of FUTURE TOUCH SRL, an ICT company based in Rome specializing in the TLC Telecommunications sector, registered ROC 29660, Cloud and Cyber Security, Software Engineering, Digital Forensics, GDPR Privacy; Audit, Assessment and Security, Compliance, Data Breach Analysis operating nationwide with Certified and Qualified Partners.

Active as a freelancer since 1993 with the first IT company and its first forensic case, serving as a scientific-technical expert for the Prosecutor's Offices of Lazio, Technical Consultant for the Public Prosecutor (PM), Court Expert, Judicial Police Auxiliary (PG), and technical consultant for private parties (CTP) including individuals, companies, professionals, private investigators, and lawyers in civil, labor, and criminal cases of national media interest.

Registered in the Register of Experts and Technical Consultants of the Chamber of Commerce of Rome No. 2274, the Register of Court-Appointed Technical Consultants (CTU) of the Court of Rome No. 2753, the Register of Innovation Managers "Digitalization and Industry 4.0" UNIONCAMERE, and the Innovation Managers Register "UNI 11814" ACCREDIA. Technical consultancy for private parties is provided throughout Italy, including the preparation of IT expertise reports.

I have held IT roles in various corporate groups across Italy and consulting assignments abroad, developing Networking and Software solutions in complex and innovative commercial and industrial contexts such as E-commerce, with a focus on corporate information protection and privacy.

I have developed training plans and projects at AICA accredited institutions as President of authorized centers issuing European certifications (European Computer Driving License - ECDL) and within the Ministry of Public Education at National Educational Entities.

Currently, I mainly focus on IT security in Cyber Security, ICT Project Management, GDPR Privacy in ICT Assessment, as a Certified D.P.O./RPD, and consultancy in Digital Forensics (Computer Forensics, Mobile Forensics, Audio/Video Forensics, Malware Forensics) to contribute to digital ethical value/ethical hacking.

I am a regular member of several National IT and Forensics Associations to share professional experiences and collaborations in the field of Digital Forensics with distinguished experts and colleagues.
